Class

CLASS 1 Consists of ORIGINAL or survival cars which have been kept running throughout the years, with only the necessary repairs to keep them going. Paint can be touched up, tires, batteries, and glass can be a replacement type similar to original equipment. Upholstery can be torn, patched or repaired, so long as it is not completely replaced. A complete repaint or upholstery job puts the car into the partially restored classification. Survivor cars will be divided into two classes: Pre WWII and Post WWII.

CLASS 2 Are the RESTORED cars made up of original parts or reproduction units of close duplication. If the engine is a replacement type, it is considered original. Repaint is acceptable if closely matches original. The same rule applies to the upholstery. Wheels are OK if they are the same as originals. (Wrong wheels will not keep you out of the show.)

Automatic elimination: flame paint jobs, body alterations (chopped, leaded, etc.), high performance engine accessories installed, incorrect engine (for example, 350 Chevy in Ford).

Safety related changes will not be penalized, such as seat belts, hydraulic brakes, turn signals, etc., nor will points be deducted in judging for these items.

| CLASS 1 (deduct 2 points for items not original) | | | CLASS 2 (deduct 2 points for each item not original or close duplicate) | | |

Terms and Conditions

Please bring a fire extinguisher to be located near left front tire during display.

No FOR SALE signs will be allowed on show grounds.

I understand the rules that require all cars to be 90% original or restored to 90% originality and agree to these conditions.
